YOU DO NOT HAVE ACCESS TO THIS FILE

When I started this challenge I see this message → YOU DO NOT HAVE ACCESS TO THIS FILE

So I see the header and cookies but I didn't see anything then I do fuzzing in directory and parameter but I didn't found anything so try to do fuzzing in header and value for this header be 127.0.0.1 so I try Origin header but that didn't work so I do fuzzing by list header and their value was 127.0.0.1 and in one of the request I see the length is changed so I saw the response and I see the flag

The header was x-forwarded
